

**D. CP Eclipse**

Purchased for \$28,000. An elite-woolled sire with superb, nourished, white crimped 60's quality. He has a magnificent square rump.

He has bred so many top sale rams and show sheep, it is a credit to the depth of his background. Semen is available only from his sons who are also breeding very well.

At the 2017 GSSM Canberra show he bred the Champion Fine/Medium Poll Ram and also the Reserve Grand Champion Poll Ram of the whole show. He is called OC Eclipse-310, huge for his age with very high quality white wool. His mother is Regal-591, a daughter of OC Titan.

In 2016 a son of Eclipse was keenly selected by a NZ studbreeder and carried a magnificent quality fleece, sold for \$7,200.

An excellent son **140048** was Grand Champion Poll Ram at Hamilton Sheepvention in 2015, sold to a WA stud for \$9,000 and is breeding extremely well.

He also has hogget daughters in this year's show team.

### STUD MASTER'S COMMENTS

*This sire certainly exudes presence for age and has **pedigree to boot**. His mother is Regal 056 – 122591 which is Titan's half sister.*

*OC Eclipse48 is the heaviest poll for age in the drop due to a massively square rump and has a very deep side, just giving more surface area for wool cut. His face and eyes are perfectly pure.*

*His fleece is of very high quality, white, crimped and superb testing medium wool near perfect for 19 $\mu$ . So obviously his skin shows great breeding potential on such a well rounded good doing sire. He also has the longest staple in the drop with density as well, all contributing to a great wool cutting ability.*

*His sire C.P Eclipse was purchased in 2012 for \$28,000 at Bendigo and considering the proper breeding of his dam, this Son of Eclipse is highly recommended for semen use.*

**PS- this ram is breeding exceptional progeny**

**SEMEN AVAILABLE**  
 \$40/dose  
 Minimum 50 doses
