

Sire Summaries etc:

- A. **OC Exceller** (HB 6.130): he is a large plain bodied ram carrying a soft-supple skin producing an outstanding quality wool, with nourishment, extremely long-stapled and showing significant breech bareness.

see sire details page 3.

2. Son - **OC Exceller 108**: exceptionally good sire (see page 4)

His fleece was of a superb quality and performed a rare feat viz. in 13 months he grew more kilos of wool than the fleece measured in microns. With a plain uncomplicated skin just oozing with pure white wax he had to breed well.

BRED: **140055** who cut 16kg and was

G587Doc	20.72	3.13	14.98	99.3	117.0
(tested by Lazerline, July 2007 in near full wool and rising 2T)					

Son of Brendon Duncan's G587, "Glen Park Stud", NSW. A pure "Collinsville" stud sire infused with a dash of "Charinga Doc" (elite wool sire of renown). "Exceller" is a large plain bodied ram carrying a soft-supple skin producing an outstanding quality wool, with nourishment and showing significant breech bareness.

His lambs in 2 drops are showing excellent structure, scale and balance with a good open head and horns. The wools are very good to excellent and many showing the same skin type as their father and grandfather.

It is indeed heartening to have a sire breeding so well, with so much quality and barely a cull.

His first drop sons are 9-10 months old, have orange tags and tested:

OC Exceller – 095108

STUDMASTERS COMMENTS:

Brilliant lustrous, deeply crimped, well-aligned, perfectly nourished wool on a well-balanced frame

His sire is OC Exceller 130, who is a grandson of Charinga Doc.

This family is breeding wools that are equal to the best ever bred at Orrie Cowie.

In 2010 half brothers sold for \$7,200, \$2,800 and \$2,400. In 2011 half brothers sold for \$4,000, \$2,800 and \$2,500.

STUD MASTER'S COMMENTS

A big upstanding well-proportioned sire who moves very freely and always holds his head high. He features exceptionally open clear head with a super soft, wrinkled muzzle. His side is deep and his legs well-placed with extra good feet and pasterns.

His most outstanding attribute though is his wool quality which many would testify is as good as they have ever seen.

He has been awarded Champion ribbons at most major shows and his progeny are absolutely outstanding.

If you want to be sure to breed good bold crimping wool Exceller 100 is the ram to use.

STUDMASTERS COMMENTS:

A very rare animal:

He has heavy bone, big barrel and weighs a “ton”.

His fleece is exceptional in a word – it is immensely dense, long stapled and richly nourished, and the quality is unbelievable.

His sire is OC Exceller 130, so is half-brother to the renowned OC Exceller 108 sire who has bred so well in many parts of Australia.

His son OC Silky has been used throughout Australia.

His son OC Brilliant sold at Adelaide 2016 for \$15,000

**STUD MASTER'S
COMMENTS**

Just a big barrel of superb quality wool. He is very well structured, standing up perfectly on his feet.

Perfect poll factor and just so soft around the head and face with excellent purity.

Born out of a Glen Park Stud Poll Ewe (with Charinga and Collinsville background). His sire is Exceller 556, a massive poll ram bred from the distinctive Orrie Cowie Exceller family, tracing back to a Glen Park Stud horn sire, bred out of the famous Charinga Doc.

With so many progeny born at numerous high profile studs for many years this pedigree is hard to refuse.

STUDMASTERS COMMENTS:

Absolutely magnificent lustrous white crimped wool on a well-structured, deep-sided pure poll sire.

His fleece has whiteness, wax and above all excellent lock structure contributing to heavy fleece weight.

His sire line is legendary. Created at Orrie Cowie from Charinga Doc and transferred into a purepoll status through OC Exceller 556. This sire is breeding so many top performers, it is nearly unbelievable.
