

## NOTES

### **Breeding Merinos for profit**

- \* Merino fleece wool of the highest quality and lowest possible micron
- \* Merino sheep maturing quickly, fertile, easy care, easy shearing and high quality meat
- \* Merino lambs with extra low micron, high value wool, ready for slaughter with a minimum of fuss

### **Breeding Merinos for the future**

- \* Productive skins, large frames, sound constitution and rapid early growth rates
- \* Heavy cutting fleeces
- \* Well nourished, bright, stylish, soft handling wools
- \* Productive sheep with minimal production costs

### **Building on a solid foundation**

Mr. T.A. Murdoch started the *Orrie Cowie* flock in 1937 with mated *Kalabity* ewes, selecting animals with open faces, sound backs and nourished heavy cutting fleeces. Average ewe fleece weights increased from 4.3 kg to 5.7kg and yields increased to 60% as dust penetration decreased.

His son Mr. Vic Murdoch continued selecting breeding stock with large frames and superior wool quality and cut. He added a draft of mated *Brewarrina* ewes (low micron, Peppin blood) to the flock. Adult ewe wool cuts increased to 6.8kg and today cutting 9kg of stylish white, super soft-handling fleece of 21µm measuring 130mm in a very good year. The Merino stud was registered in 1965 and the Poll Merino stud registered in 1968.

In 1999 Vic's son-in-law and daughter, Dennis and Heather Dalla purchased the *Orrie Cowie* Merino stud and a third of the Poll Merino stud. In 2018 their son, John took over as studmaster. We continue to select Australia's best breeding stock, knowing the value of the *Orrie Cowie* elite wool qualities in reducing dust penetration, fleece rot and incidence of flystrike.

**We welcome you to *Orrie Cowie's* 53<sup>rd</sup> Annual Field Day and Ram Auction and invite your inspection.**

N.B. MERINOS FOR PROFIT™ is a registered trademark for participating breeders OJD-MN3 status and fully vaccinated against OJD, and Brucellosis accredited.

## **FLEECE and PRODUCTION MEASUREMENTS EXPLAINED**

1. **FIBRE DIAMETER (FD)** - This is the measurement of the average diameter of 2000 fibres, taken at random from a mid-side sample. Measured in microns ( $\mu$ ) using the latest AWTA approved Laserscan machine.
2. **STANDARD DEVIATION (SD)** – Measures in microns the spread of fibres either side of the mean FD in which 68% (two-thirds) of the fibre lie. The lower the SD the more uniform the wool.
3. **COEFFICIENT OF VARIATION (CV)** – Measures the spread of fibre diameter variation relative to the average fibre diameter of the sample as a percentage. CV can be used to compare wools of different micron averages in terms of fibre distribution. A lower CV is more desirable. The national flock average is 24.7%.
4. **COMFORT FACTOR (CF)** – This is a measurement of the wool fibres in a sample which are less than 30 microns ( $\mu$ ), and expressed as a percentage.
5. **FAT** – Ultrasound measurement of back fat depth in mm.
6. **EMD** – Ultrasound measurement of eye muscle depth in mm giving an indication of carcass quality. The higher the measurement the bigger the eye muscle.
7. **BODY WEIGHT (BW)** – The body weight of the ram measured in kg (using electronic scales), accurate to 0.5kg.

## STUD MASTERS COMMENTS

May I take this opportunity to commend this year's offering to you.

Here at Orrie Cowie we are aiming to maintain free-growing, long staple skins to help increase the wool cut of our sires on offer. We are breeding a 21µm average and so most rams on offer measure between 19-22µm, of crimp white nourished wool. This should help you as woolgrowers to best meet the current market demands for wool. To add to this trend we are always selecting for good big rumps and deep sides, obviously aiming for good-doing ability and better performing lambs.

Also at Orrie Cowie we are actively selecting for ability to reproduce by joining for only 35 days and culling out any females with more than one "dry" season in their lifetime, including not rearing a lamb for whatever reason. **Tough, I know but we are actively pushing for better results every year to help you get better returns.**

Please avail yourselves of this quality line-up, and ask about some of our new and exciting family lines. The top 50 rams in this year's offering are April/May 2017 March shorn with 9 being 2016 drop August shorn and have been shedded out of the worst dust and rain to maintain a cleaner tip and fleece for your appreciation. The rest are April/May 2017 drop, paddock run and May shorn.

The rams' fleeces were sampled on the 1<sup>st</sup> June 2018 for the AWTA tests and 6<sup>th</sup> July 2018 for Lazerline tests. Bodyweights were taken 16<sup>th</sup> July 2018.

In the selection of rams for dusty conditions, especially on Yorke Peninsula, obvious nourishment is important to help maintain good yields and quality white fleece wool. White waxy nourishment, soft-handling, bright white fleece wools are the Hallmark of Orrie Cowie bred sheep.

May I suggest that considering the unprecedented buoyant state of both the meat and wool markets, if you would like to improve your flock more quickly than normal, or you are breeding a few rams, you may consider the use of semen from Orrie Cowie proven sires. Availability to commercial breeders is totally unrestricted (you can start right at the top if you want) and price by negotiation can be very reasonable. AI is a very good way to improve your flock in just one generation.

The top REDWOOD White Suffolk rams will be offered alongside the Merinos with an aim to integrate meat production (either merino or crossbred) using heavy cutting, big frame merino ewes. Please consider these quality rams which have been bred to compliment your merino breeding operation. The rams selected are the top performers of the drop. All have been selected for long well-fleshed bodies and very white, good combing wools. All rams have been weighed and muscle scanned to help with selection.

**All the best with your purchases  
and thank you for choosing Orrie Cowie and Redwood.**

## Sires used between 2016-2017 at Orrie Cowie

**MP34** – 2013 Grand champion March shorn ram in Adelaide. Bred by Moorundie Park and sold to Blue Hills Stud for \$28,000. Large-framed poll ram with terrific crimp bold medium wool.

**Pearler 980** – An artificially bred poll sire, retained by Orrie Cowie for stud breeding. A well-structured ram with magnificent crimp medium wool, with wool cutting ability in the elite of the whole merino industry. Heavily nourished.

**Pearler 6** – half brother to Pearler 980, with very similar wool quality

**Phoenix** – purchased from East Strathglen in 2016 for \$8,000

**Sampson** – bred by Collinsville from Star affair 484. A massive young ram, with exceptional early growth and bone: carrying a crimp high yielding wool.

**Solomon** – a big structurally correct strong wool poll sire.

**Silky** – a superb white woolled, heavy cutting poll ram growing to 145kg and cut 16.5kg.

**Titan** – SA Ram of the Year in 2014. Also 2014 Grand Champion August Shorn Poll Ram, Sydney Royal Show; 2014 Grand Champion Poll Ram, Royal Adelaide show. Sold at Dubbo National Show for the top price of the sale at \$25,000.

Test July 2014: 21.4µm FD, 3.4µmSD, 15.9%CV, 99.6% CF at 160kg BW. Cut a magnificent, 20kg of wool after Adelaide and having worked several times in that fleece. Certainly, use of semen is highly recommended.

**Titan 129** – an outstanding son of Titan, bred at Orrie Cowie.

**Trojan** – the biggest ram ever bred at Orrie Cowie, reaching over 170kg at 26 months, with a pure white waxy fleece measuring only 19µm. He is sired by Promoter 181 (see above). He has bred some incredible progeny wherever his semen has been used.

**V8** – A poll with crimp, rich, medium wool bred by West Plains Poll and used widely around Australia.

## Sires used between 2016-2017 at Orrie Cowie

**Achilles** – (151305) sired by Trojan. Dam: Tara. Born 15<sup>th</sup> July 2015. He has exceptional quality medium wool that is pearly white and waxy, no squint and elite crimp. Great open face & excellent horn setting. Stands square & deep with great feet and pasterns.

Tested June 2017 FD17.2μ, SD 2.4μ, CV 14.0%, CF 100%, BW 148.5kg (July 2017)

**Assassin** – bred by Hinesville Merinos.

**Assassin 182** – (150182) sired by Assassin out of an OC ET donor ewe.

### C109-94

**Earle 21**- Poll bred from our famous Exceller family with lots of quality wool. He has bred many rams of distinction.

**Eclipse** – purchased for \$28,000. An elite woolled sire with superb nourished, white crimp 60's quality. He has a magnificent square rump and has bred extremely well.

**Eclipse 048** – son of Eclipse sold in 2015 to a WA studbreeder for \$12,000. Super staple, elite bold medium wool, with great bone, structure and doing ability.

**Eclipse 310 - 151310** sired by Eclipse, dam: Regal 122591. ET bred. Born 15<sup>th</sup> July 2015 Unbelievable growth and size for age. Magnificent crimp, nourished, well-aligned pure white fleece with long staple. Structural excellent and showing fantastic carcass traits. Tested June 2017 FD 20.9μ, SD 2.7μ, CV 12.9%, CF 99.5%, BW 165.0kg (July 2017)

**ES542** – East Strathglen ram, ET half brother to their top ram in 2016

**Exceller** – this quality wool sire OC 6.130 has exceptional wool on a very plain body. His father was a Glen Park Merino born out of a sound Collinsville ewe base using Charinga Doc as the sire. This ram has undoubtedly bred the best wools ever seen at Orrie Cowie.

**Exceller 026** – a young sire by Exceller 108. He has sired OC Exceller100 who is retained at stud, and has one of the most magnificent wools you will ever see.

**Exceller 488** – sold in 2016 for \$15,000. Structurally magnificent with terrific barrel. He carries elite quality strong wool. Excellent nourishment.

**Exceller 556** – super elite wool with the body weight and sire presence to go with it. He was 140kg by July in his second year. He has proven to be a highly influential pure poll sire.

### Glenn 83

**Imperial** – a poll family breeding massive, well-structured lambs with crimp heavy –cutting strong wools. **Imperial 735** – an Orrie Cowie bred reserve from this family.

**Majestic 623** – a huge grandson of Collinsville Majestic, carrying a crimp 58's, nourished wool.

**McLeod 968** – a top young poll sire with fantastic structure and doing-ability, carrying a lovely medium, nourished white wool.

**Mercinary** – a big barreled 150kg poll ram carrying super crimp, long-stapled wool. He won Supreme exhibit at 2015 Sydney Royal Show.

**Monarch 489** – a Collinsville ram from their Monarch family.
